

WORLD CCTV

MANUAL PART 2

Select "Import File" and choose the file I sent to you.

Input your IP cam/DVR/NVR's new password in "New Password" and "Confirm Password", tick the option "Reset Network Cameras' Passwords", click "Confirm" to finish reset.

Note: Before doing step 7, please connect as many cameras to the NVR as possible, since only the connected cameras' password can be reset together with NVR's (Only POE).
